## PROFESSIONAL SUMMARY

Computer Science undergraduate focused on **Product Management** and **AI-first products**. Experienced in translating user and business problems into **product requirements**, **user journeys**, **prioritized features**, **prototypes**, and **success metrics** through product casework and startup development. Seeking **Product Management / AI Product Management** internship opportunities.

## SKILLS

**Product Management:** Product Discovery, User Research, Problem Framing, PRDs, User Stories, User Flows, Feature Prioritization, Roadmapping, Product Metrics, KPI Definition, Stakeholder Communication

**AI Product Management:** AI Product Strategy, AI Product Fundamentals, AI Use-Case Identification, Prompt Engineering, AI Tool Evaluation, AI Workflow Design, AI Product Research

**Business & Analytics:** Market Research, Competitive Analysis, TAM/SAM/SOM, Business Models, ROI Analysis, Data-Informed Decision-Making

**Technical:** Java (Core+Advance), SQL, JavaScript, HTML, CSS

**Tools:** Git, GitHub, ChatGPT, Claude Code, Make.com, n8n, Replit, Antigravity, Codex, Amplitude, Mixpanel, Figma, Notion

## EXPERIENCE

**Marketing Team Member** | **Entrepreneurship Cell, IES IPS Academy** — Mar 2025 – Present

- Coordinated delivery of **3 entrepreneurship events** with marketing, outreach, and operations teams, contributing to a **40% increase** in student engagement.
- Streamlined cross-functional event workflows by aligning marketing, outreach, and operations stakeholders, reducing coordination time by **30%**.
- Executed targeted digital outreach and partnership campaigns, contributing to a **55% increase** in event attendance.

## PRODUCT MANAGEMENT PROJECTS

**Product Management Capstone — Meeting Commitment Tracking** — VIEW

***Fireflies.ai*** *| Airtribe*

- Investigated the gap between meeting intelligence and post-meeting execution, identifying opportunities to improve commitment ownership and follow-through.
- Designed a connected solution combining **automated smart nudges**, **multi-tool synchronization**, and **commitment lifecycle tracking**; documented the experience in a **PRD** and prioritized features using **RICE**.
- Set a proposed success target to improve meeting commitment resolution from **28% to 45%** (+17 percentage points); this is a target, not a measured outcome.
- Translated the solution into product requirements, user flows, success metrics, and **Make.com / n8n** automation workflows.

**Adnivio — AI-Powered Growth Platform for SMEs** — VIEW

*Founder-led product concept | Product strategy, discovery, and prototype*

- Shaped the product vision and prioritized user journeys for an **AI-powered SME growth platform**, translating SME pain points into product opportunities.
- Mapped the core experience across **SME onboarding**, **product/service marketplace**, **AI-assisted advertising**, **performance analytics**, **wallet**, and **buyer–seller communication**.
- Evaluated AI use cases for ad creation, campaign planning, and performance insights against user value, business impact, feasibility, and responsible-AI considerations.
- Assessed competitors, SME market opportunities, **TAM/SAM/SOM**, **monetization**, and positioning; documented requirements, feature priorities, prototype flows, and proposed success metrics.

## EDUCATION

**B.Tech, Computer Science & Engineering** — IES IPS Academy, Indore — 2024–2028

## CERTIFICATIONS

**AI-First Product Management** — Airtribe • **IBM AI Product Manager Professional Certificate** • **Microsoft AI Product Manager Professional Certificate**
