LINKEDIN | GITHUB | PORTFOLIO

PROFESSIONAL SUMMARY

Computer Science undergraduate specializing in **Product Management** and **AI-first product development**. Proven experience translating ambiguous customer pain points into structured **PRDs**, prioritized feature backlogs (**RICE**), interactive prototypes, and measurable **KPI frameworks**. Seeking **Product Management / APM** internship opportunities.

SKILLS

Product Management: Product Discovery, User Research, Problem Framing, PRDs, User Stories, User Flows, Feature Prioritization (RICE), Roadmapping, Product Metrics, KPI Definition, Stakeholder Communication

AI Product Management: AI Product Strategy, AI Product Fundamentals, AI Use-Case Identification, Prompt Engineering, AI Tool Evaluation, AI Workflow Design, LLM Evaluation

Business & Analytics: Market Research, Competitive Analysis, TAM/SAM/SOM, Business Models, ROI Analysis, Data-Informed Decision-Making

Technical: Core Java, Advanced SQL, JavaScript, HTML, CSS

Tools & Platforms: Amplitude, Mixpanel, Figma, Notion, Make.com, n8n, Replit, ChatGPT, Claude Code, Antigravity, Codex, Git, GitHub

PRODUCT MANAGEMENT PROJECTS

Product Management Capstone — Meeting Commitment Tracking VIEW

Fireflies.ai | Airtribe

- Diagnosed the gap between post-meeting transcription and task ownership across knowledge workers through qualitative discovery and workflow analysis.
- Specced a connected solution combining **automated smart nudges**, **multi-tool synchronization**, and **commitment lifecycle tracking**; authored a comprehensive **PRD** and prioritized features using **RICE**.
- Established success metrics targeting an improvement in meeting commitment resolution from **28% to 45%** (+17 percentage points) based on asynchronous workplace benchmarks.
- Engineered functional end-to-end automation workflows using **Make.com / n8n** webhooks integrated with collaborative task managers.

Adnivio — AI-Powered Growth Platform for SMEs VIEW

0-to-1 Product Discovery & Prototype | Independent Venture Case Study

- Defined product vision and prioritized user journeys for an **AI-powered SME enablement platform**, translating small business customer acquisition barriers into product feature specs.
- Architected core end-to-end user flows across **merchant onboarding**, **service marketplace**, **self-serve ad generation**, **performance analytics**, and **in-app wallet transactions**.
- Conducted feasibility and trade-off assessments for AI-assisted ad copy creation, evaluating model inference cost, user value, and output guardrails.
- Calculated market sizing (**TAM/SAM/SOM** of target micro-enterprises), designed a tiered **monetization** model, and mapped release milestones with accompanying guardrail metrics.

EXPERIENCE

Marketing Team Member | Entrepreneurship Cell, IES IPS Academy Mar 2025 – Present

- Orchestrated cross-functional execution for **3 flagship entrepreneurship events**, aligning marketing, outreach, and logistics to achieve a **40% increase** in qualified student participation.
- Standardized cross-functional communication and approval workflows across 3 internal teams, reducing project coordination time by **30%**.
- Formulated targeted digital distribution and partner acquisition campaigns, resulting in a **55% increase** in event attendance.

EDUCATION

B.Tech, Computer Science & Engineering — IES IPS Academy, Indore **2024–2028**

CERTIFICATIONS

AI-First Product Management — Airtribe • **IBM AI Product Manager Professional Certificate** • **Microsoft AI Product Manager Professional Certificate**
